

February 2015

Edison Park Creative & Expressive Arts Spotlights.....

2015 has started off with many fun activities and accolades for school, students and staff. Take a look at some of the wonderful things that have happened at our school since the beginning of year.

Edison Park received a grant written by Dr. Clements for our third graders to teach them about fiscal responsibility. Thank you, Dr. Kim.

Our fifth grade teachers invited Robert VanWinkle from NBC2 News to speak to the students about weather. This concluded their weather unit in Science. He reviewed the weather terms: cold front, warm front, high pressure, low pressure, precipitation, wind speeds, severe weather, etc. He also introduced the group to a new way of gathering data to broadcast and study the weather. Our students asked great questions.

Sandy Lantz, our Amazing Music Director, received the well-deserved, Florida Music Educators Association Music Education Service Award in Tampa on January 16th. Congratulations!!

Our Boys 'n Black and violin groups have been busy performing in the community at a halftime show at Fort Myers High and/or celebrating Thomas Edison's birthday at the Edison/Ford Winter Estates.

Mrs. Pavese's kindergarten class celebrated the 100th day of school by forming "100" with their bodies in Mrs. Peters' dance class on February 2nd.
